## FLYNN CITY SYNOPSIS

In the heart of downtown Altonville, there is a hard working no-nonsense police department that is known for their impeccable efforts in crime fighting and community policing. The only problem is ..... it is all a lie. There is another reality.

The Department is run by brilliantly complex Captain John Flynn, there isn't anything that isn't under his control or knowledge. He is a reincarnation of the infamous FBI head, J. Edgar Hoover, without the fetishes, but with all the power and dirt on his enemies.

From the Mayor, the City Council, Judges and his brother Edward Flynn the District Attorney, John has the city under his control. The Flynn's run this town. Captain John Flynn is so powerful he can not be fired or replaced.

The combination of the DA and Judges in his pocket and an endless amount of low-level losers to take the fall for them makes them untouchable. This morally upside down dramatic procedural series puts an element of suspense in every scene of each episode. It's as if the Soprano's took over a police department.

***Characters***

Captain John Flynn is the mastermind and morally conflicted center of the series. He has a daughter, Jasmin, 15 and a son James, 10, from his ex-wife Patricia, 44. He has a sexy Romanian fiancée, Teodora – “Teo”. His personal life leaves him with endless amounts of family grief and angst.

John snapped as a junior officer when he was tortured and almost killed by a local mobster. He went on a murderous vengeance spree and wiped out the local mob. Cornered and blackmailed he started to fill the void.
